Tentative School Board approval date is July 14, 2020. Anticipated start date is August 1, 2020. A phase in of services by the awarded provider will be expected to begin immediately upon award to meet full implementation no later than August 1.

I. DISTRICT-WIDE SOLID WASTE MANAGEMENT

Please provide pricing on a per bin basis, including all overfill fees. (REQUIRED)

Provide a la carte pricing schedule for all options available from contractor (REQUIRED)

Bins and roll-offs will be provided by the awarded contractor.

Generally, the District requires a waste pick-up at each site one time each day, Monday through Friday and, as otherwise specified.

Any requests for additional services must be originated by the District’s Facilities or Maintenance & Operations departments; pickup or delivery requests from any other source may result in non-payment for those services.

The District prefers that pick-ups be made during the hours which would minimize any potential disruption or interference with any school activities and to minimize noise in the neighborhoods where District schools are located.

Bins must be maintained as required under all applicable requirements. Additionally, the Contractor shall change any bin, provide any cover, and provide lock bars within 48 hours of any request by the District. Upon a 24-hour notice, either written or by phone, the District may reduce or increase the number of pick-ups for each bin and the District will be obligated to pay only for bin services received.

II. DISTRICT-WIDE RECYCLING PROGRAM

A. Recycling Program

1. The Newport-Mesa Unified School District is interested in implementing a student/staff recycling program to separate recyclable materials from cafeterias and classrooms; and such material is placed in designated recycle containers for
gathering to collect and empty into Contractor’s recycle bins. The District may coordinate a meeting with the Contractor (and the Contractor’s Recycling Center representative) for program review. Credits received by the contractor should be itemized and applied directly to the District’s monthly billing. It is the District’s intent to have the recycled items bins picked up during the normal schedule of collection twice per week.

The District has established the number of days during the week for each location site for the pick-up of recycled bins. The District may adjust the schedule of pick-up during the contract period based on the volume of recycled waste generated. Fluctuations are anticipated and are considered an inherent part of this service. The District plans to recycle paper, plastic, cardboard and aluminum cans. The District may add new material or delete any types under the District’s recycling program, any requests for additional services must be originated by the District’s Facilities or Building Services departments, pickup or delivery requests from any other source may result in non-payment for those services:

a. Recycled materials will be comingled.
b. Recycled materials will be bagged in recyclable trash bags.
c. Material will be placed in the designated recycling bin.
d. Additional Collection receptacles may be requested for the recycling of wood and metal products.
e. The District requests that the contract provide quarterly reports on volume of solid waste and recycled materials collected.
f. The contractor shall ensure that organic waste is recycled in a specific manner in accordance with Assembly Bill No. 1826

B. Recycling Program Recommendations

The District requests that Contractors include within their proposals specific recycling recommendations for the District’s Recycling Program. These recommendations may be suggestions for consideration which would allow the District to potentially improve its Recycling Program, enhance conservation, and improve the quality of the environment and potentially save money.

C. Composting Program Recommendations

The District is looking at reducing solid waste removal by increasing composting or proper recycling of lunchroom and green waste. The District requests that Contractors include within their proposal’s specific recommendations for a District composting program. Provide pricing on a per bin basis for removal of compostable materials. Including ensuring the District is AB1826 compliant.
Solid Waste Disposal and Recycling Site Listing

The following chart provides information on the current bin count at each District site, it will be the responsibility of the awarded contractor to notify the District of any recommendation to right-size the collection bins at each site based on individual site needs to avoid any over fill charges. All bins are picked up 5 times per week, Monday thru Friday, unless otherwise instructed in writing by the Director of Maintenance & Operations or their designee:
