Subject: Request for Qualifications #119-21 - Construction Management Services

Dear Mr. Geiszler,

Knowland Construction Services (KCS) is pleased to provide Newport Mesa Unified School District our Statement of Qualifications for Construction Management Services for various new construction and modernization projects. We have read the RFP and addendum, and have a strong understanding of all project requirements. We do not have any exceptions to the contract requirements or terms of conditions listed in the RFQ. KCS has successfully provided project/construction management, inspection, and quality control services on more than $2 billion of high-profile projects in various school districts and college campuses.

KCS is a Women Owned / Minority / Small Business Enterprise with more than 30 years of service in the construction industry and a corporate office located in Manhattan Beach, CA. KCS currently has more than 70 project managers and inspectors working full-time on multiple projects in various school districts all over Southern California.

The projects at Newport-Mesa Unified School District will be managed by Chris Knowland, Rick Guaderrama and Jeff Kellogg. Chris Knowland has a background in architecture, engineering, construction management, inspection, and has worked on projects up to $1 billion in size. Rick Guaderrama has 25 years experience as a project manager and director of facilities managing more than $700 million of bond construction programs at Placentia Yorba Linda Unified School District. Jeff Kellogg has more than 15 years experience as an educational and facilities master planner and was a former Board of Trustee President for Long Beach Community College District, serving on the Board for 16 years. KCS has proposed a team of highly qualified construction personnel capable of managing all aspects of a bond program.

It is our philosophy to work with the entire project team to be forward-thinking and understand the entire construction process to prepare all contractors to meet the project requirements and standards of quality, schedule, budget, and close-out as determined by the District. We have also been instrumental in assisting many districts in minimizing litigation and improper contractor claims. KCS has never had a significant dispute with a client for whom we provided services.

KCS has a fully staffed office and cloud-based management system for all documentation to be reviewed and accessed by the entire project team. You may also review additional information about our company at KnowlandConstructionServices.com.

We look forward to working with Newport-Mesa Unified School District.

Sincerely

Chris Knowland
President

Chris Knowland – President  
Date
3.1.3 SENIOR STAFF EXPERIENCE

Christopher Knowland – Project Executive
BA - Liberal Arts - Whittier College - 1983
General Contractor B61110
DSA #4331

Chris has more than 30 years-experience in the construction industry and has worked as a hands-on carpenter through college. After college, Chris worked for Craddock Engineering as a project engineer on large civil projects located in Africa and the United Kingdom. After returning to the U.S. in 1988, Chris worked for several large developers and obtained his contractor’s license, and pursued building restaurants, commercial buildings and other residential projects. In 1995 Chris started working as a construction manager, performing pre-construction services and running multi-prime delivery of K-12 projects for Osborn Architects, which includes numerous projects for San Marino Unified School District and La Canada Unified School District. Chris still provides consulting services for Osborn Architects more than 20 years later. Chris obtained his credentials from the California Division of State Architect to assist him in working with problematic inspectors on his projects. After receiving his DSA certificate, Chris formed Knowland Construction Services to provide quality consulting, construction management, and DSA inspector services for numerous clients. Chris has extensive knowledge of construction methodology including scheduling, constructability, estimating, contract negotiations, and mediation of disputes. Chris has participated in various construction programs for more than 50 school Districts, and more than 1,000 DSA applications. Chris is the former President of the Los Angeles Chapter of the American Construction Inspectors Association. KCS has never been removed from a project and KCS have never lost a contract where we have worked previously. KCS manages a payroll in excess of $600,000.00 each month.

Rick Guaderrama – Project Manager
MS – Architecture – Cal Poly Pomona 1996
BS – Liberal Arts – Cal Poly Pomona 1991

Rick worked as a mason’s tender during college, gaining hands-on construction experience in the construction trades. Rick worked as a Project Manager and Assistant Director of Facilities until he was named Director of Construction for Placentia Yorba Linda USD, being promoted to Executive Director of Facilities in 2007. Rick managed more than $700 million of projects, utilizing numerous delivery methods, and running one of the most efficient building programs in Southern California. Rick retired from PYLUSD in 2018. Rick and Chris worked extremely well together, and Rick joined Knowland Construction Services, after working together for more than 15 years as a KCS client. Rick is one of the hardest working, most knowledgeable individuals in the construction industry with a hands-on, owner’s perspective. Rick brings a wealth of knowledge of Program Management, Construction Management, and Facilities Management and Planning. Rick will be a Project Manager for Newport Mesa USD if Knowland Construction Services is awarded a contract.
Jeff Kellogg – Vice President Operations
BS- Political Science – University of Oregon
Real Estate Broker License

Jeff started out working for his family company, Kellogg Drilling Contractors, in 1977 working as a rough neck, tool pusher, and eventually Vice President of Operations. In the early 80’s, Jeff installed one of the oil derricks we recently removed from Beverly Hills High School in preparation for their current construction program. Jeff soon earned his Real Estate Brokers license because Drilling Contractors are required to have one in order to negotiate mineral rights. Jeff joined MAAS Companies in 2006, performing comprehensive services for higher education including developing facilities master plans, program management and project management at the community college level. Jeff was elected to the Board of Trustees for Long Beach City College in 2002, serving until 2018, and serving as President of the Board for five terms, and managing the procurement of bond programs in excess of $1 billion dollars. Jeff was elected to the Long Beach City Council in 1988 and served until 2000. He also served as Vice Mayor for two terms. Jeff was also the Chairman of the Governing Board for the Alameda Corridor Transportation Authority, overseeing a $2.1 billion public works project. Jeff brings extensive knowledge in Program Management, managing bond programs, and construction management. Knowland Construction Services has been working with Jeff at Long Beach Community College District for nearly 10 years, and Jeff joined Knowland Construction Services in 2019.

Rich Knowland - Director
MS- Public Policy and Administration – Cal State Long Beach 1985
BA- Political Science – Whittier College 1983
Former Board Member of the Seniors Housing Council.
Past President of the Board, Irvine Children’s Fund.
Past Board Member-Home Aid Orange County.
Citizen Oversite Committee – Irvine Unified School District.

Rich is a Project Executive with more than twenty-five years of experience in operations, acquisitions, forward planning, entitlements, land development, construction, sales and marketing with extensive management and leadership roles in leading California real estate development. Rich is a Principal of Brooks Street, Newport Beach, CA. Rich was instrumental in the development of the original “Platinum Triangle” development project in Orange County and was recently awarded the development contract for Angel Stadium’s “A Town” development. Rich has worked with several K-12 school districts for land acquisitions, and manages efforts on a portfolio valued in excess of $1B.
3.2 EXPERIENCE
3.2.1 FIRM'S EXPERIENCE:

Knowland Construction Services has provided project management, construction management, staff augmentation and DSA inspection services on more than 1,000 DSA school projects. Additionally, KCS provides general contracting and development for private projects. KCS staff include construction managers, project managers, DSA inspectors, architects and numerous individuals with advanced degrees. Our success is due to our passion for construction and our unique ability to seek and retain qualified construction professionals in the industry. KCS is familiar with all relevant government agencies, public works regulations, OPSC, DSA, DGS, DTSC, public utilities, fire marshalls, and Division of State Architect Field Engineers and San Diego Management Staff.

Experienced design-builder specialist with a demonstrated history of working in the construction industry. Demonstrated skills in the close-out process of a project. Skilled in advanced Microsoft office, effective plan reading, Leadership, Marketing, and proven Bluebeam literacy. A strong sales professional with an Economic focused in International/Global Studies background, from Marymount California University.

EDUCATION:
2014’ Associates Degree in Speech/ Communications, MCU
2016’ Bachelors Degree in Global/ International Studies and Economics, MCU
OSHA 30 # 31-602009614
ACI Concrete Field Grade Technician 1: # 01649396
ICC Special Inspector - General Requirements: # 9244505
California Commercial Building Inspector Certification
FAA Unmanned Pilot – Drone Certified

WORK EXPERIENCE:
June 2019 - Present - Knowland Construction Services, Sunkist Elementary School DSA # 04–117365
Project Engineer.
DSA Project Number # 04-119296 – James Guinn Elementary School – Play Area Installation
DSA Project Number # 03-118304 - Hawthorne High School - Phase 2
DSA Project Number # 03-119811 - Leuzinger High School – Close out
DSA Project Number # 04-117365 - Sunkist Elementary School - Job close out
With many functions regarding close out. Curator and Organizer of RFI, Submittal, Transmittal logs and As-built editor.

2018 - 2019 - Griffith Company, Los Angeles International Airport Joint Venture
Project Engineer.

2017 - 2018 - Griffith Company, Los Angeles International Airport Joint Venture
Cost Control Engineer.

2017 - 2018 - Griffith Company, Los Angeles International Airport Joint Venture
Interdisciplinary Practicum.

2016 - 2017 - Crown Fence Co, Santa Fe Springs
Accounts Receivable, Accounts Payable and Material Sale
Reach out to customer leads through cold calling, email and fax. Present, promote and sell products/services using solid arguments to existing and prospective customers. As well as, perform cost–benefit and needs analysis of existing /potential customers to meet their needs (Establish, develop and maintain positive business and customer relationships).

Mr. Pozo is a proactive, Project Engineer with the desire to expand his career in the construction industry. Steve possesses excellent problem-solving, public-speaking, interpersonal, and communications skills needed to perform effectively on every project. Steve's ability to collaborate effectively in a team environment helps maintain the project's schedule and organization throughout the entire construction process.

**EDUCATION:**

**Masters of Business Administration (MBA) 2019-2020**  
Marymount California University, Rancho Palos Verdes, CA

**Bachelor of Arts in Business Management (BA) 2015-2019**  
Marymount California University, Rancho Palos Verdes, CA

**Associate of Arts Degree (AA) 2015-2016**  
Los Angeles Harbor College, Wilmington, CA

**WORK EXPERIENCE:**

**07/2019 – Present**  
**Project Engineer, Knowland Construction Services**  
Ethel Dwyer Middle School, Agnes Smith Elementary, Huntington Beach, CA

**DSA #04-118147, #04-118150, #04-118146, #04-118147**

Assist DSA Inspectors of Record and Construction Management Teams for (4) DSA projects within HBCSD ranging from $500,000 to $20,000,000. Involving the construction of new classroom buildings, gymnasiums, STEM labs, classroom modernizations, and shade structures. Responsibilities include plan reading, submittal review, Request for Information (RFI's), and DSA documents such as CCD's, Addendums, and Deferred Approvals. Scheduling special inspection labs, coordinate layout of existing utilities, verify materials, and that work is completed to the approved plans, specifications, shop drawings, and submittals. Fluent in construction terminology and document management consisting of Procore and Submittal Exchange, and Newforma. Competent in all aspects of school construction, specifically structural, fire life safety, and access compliant.

**07/2018 – 06/2019**  
**Marketing Director, Office of Student Life**  
Marymount California University, RPV, CA

Plan and organize bi-weekly events to build community and enhance the quality of life of our students. Design posters, flyers, for specific student events to be promoted all around campus. Participate in weekly meetings and collaborate with colleagues to execute tasks and brainstorm new student events. Utilize social media, including Instagram and Twitter, to market events and enhance awareness of student programs and events.

**08/2013 –06/2019**  
**Electrical Apprentice/Office Management**  
Horst K. Electric, Harbor City, CA

Verified and identified hours and wages of employees into QuickBooks on a weekly basis. Utilize Excel spreadsheet to organize and fill in job orders, scheduling jobs and employees, and creating invoices. Charted and arranged electrical materials for specific jobs. Examine and oversee electrical blueprints and take note of what is needed for each specific job. Perform physical tasks such as to pull wire, make correct wire connections, installing light fixtures, outlets, hooking up and installing electrical panel.

PROFILE: Austin is a Project Engineer with experience on DSA projects including the construction of a $40 million new classroom building, a museum remodel, a planetarium remodel, shade structures / seismic upgrades, solar projects, fire alarm projects and typical modernizations. Austen has hands-on experience working as a general tradesman, and is a certified concrete inspector. Austen has excellent communication, computer and administration skills, and understands DSA Box.

EDUCATION /CERTIFICATIONS:

- BA Business Management @ Marymount California University
- ACI Concrete Technician Level I course / Epoxy Inspection

WORK EXPERIENCE:

2018 – Present | Project Engineer - Huntington Beach Elementary School District / Chaffey College
Responsibilities include but not limited to management of all project documentation for Hawes Elementary School and Kettler Education Center. Site Pavilion construction project, a Planetarium and Museum. Performed man counts, attended safety meetings, wrote daily reports, managed special inspectors, wrote RFIs, Change Orders, updated as-builts and coordinated with contractors.

2017 – 2018 | Project Engineer - Santa Monica-Malibu Unified School District
Fire Alarm Project. Responsibilities include but not limited to writing daily reports, man counts, DSA Box, posting plans (RFI’s, As-builts, CCD’s, and Bulletins), document filing, report processing, reviewing submittals. Project includes fire alarm at 2 campuses and complete renovations including windows, mechanical, finishes and ADA.

2013 – 2017 Construction Laborer
Laborer / Carpenter / PM – Responsible for hands on labor for many trades including carpentry, concrete, structural steel, epoxy anchors, demo and misc. construction primarily on residential projects. Managed sub contractors and maintained job sites.

3.2.4 PUBLIC WORKS REQUIREMENTS

Brief Summary of Public Works Requirements

Knowland Construction Services is familiar with State of California requirements embodied in the actions and regulations of the State Allocation Board and Office of Public School Construction, California Department of Education, Division of the State Architect, Department of Toxic Substance Control and other State and Local Agencies. Very briefly they include:

State of Allocation and Office of Public School Construction (SAB/OPSC): KCS is very familiar with the requirements and regulations of OPSC. Our staff is familiar with the basis of state funding of facilities including the ‘3 Lists’ associated with tracking submission and approvals of funding applications. Most importantly, KCS understands the Grant Agreement requirements including tracking expenditures (DLOPE), proper procurement of professional services, Department of Industrial Relations contractor registration and prequalification mandates, local matching fund stipulations, routine restricted maintenance account requirements and final independent audit requirements.

California Department of Education: KCS is familiar with the State of California design standards embodied by CDE design and site standards including classroom square footage requirements, service/off site requirements, and architectural space standards for different grade levels. KCS is familiar with CDE standards as a part of the Grant Agreement requirements. KCS has been involved in various Career Technical Education programs that have been implemented at the high school level as well as feeder STEM programs at the middle school level.

Division of the State Architect (DSA): DSA is the primary State Agency granted the police powers of the state to oversee the approval and construction process for structural, fire/life/safety and access compliance. DSA construction oversight is embodied in numerous Interpretive Regulations (IR), Bulletins (BU) and Procedures (PR) that are available for design professionals, inspectors and school districts. PR-13-01 is of particular importance for construction process for its stipulations regarding the various report requirements for the different entities such as Project Inspector (PI), Geotechnical Engineer of Record, Laboratory of Record and Special Inspection requirements. KCS manages close out of DSA projects continuously throughout the project. However, we believe that close out begins at pre-construction (e.g. ensuring submittal and inspection milestones are determined in the scheduling requirements) and matures throughout the construction schedule. KCS has developed PI monthly checklists to ensure continuous tracking of close out documents.

Department of Toxic Substance Control (DTSC): KCS is familiar with DTSC requirements for the import (and sometimes export) and testing of soils for schools. Staff at KCS has been involved with contaminated sites and are familiar with the reporting requirements and even long term monitoring of the remediation plans for sites. We have worked with various consultants including Mission Geoscience and similar firms. Such services should be completed prior to construction in order to ensure work is not impacted.

Other Local Agencies: KCS is has worked with other local agencies such as water districts and cities in regards to right of way impacts during grading operations and construction operations. In particular, KCS is familiar with Government Code section 53097 and its impact to SWPPP and interaction with SWRCB regulations and impacts. KCS is familiar with Storm Water regulations for Construction Permits and implementation during construction activities and further the upcoming regulations for school districts in regards to Water Quality Management planning.

In addition, KCS is intimately familiar with the bidding requirements of Public Contract Code, Education Code (LLB Best Value) and RFP requirements for maintenance, deferred maintenance and construction services contracts.
3.3 PROJECT & COST MANAGEMENT
3.3.1 PROCEDURES

Knowland Construction Services is aware that facilities management covers a broad spectrum of both program and project management responsibilities. At the program level KCS ensures program level management duties and procedures are established to ensure adherence with fiscal budgets and that internal controls are identified and followed. Our program procedures will clearly identify and communicate:

- Design and construction cost budgets
- Design and construction schedules and timelines
- Financial reporting and internal controls
- Payment procedures
- Change order and claim procedures
- Best practices for procurement procedures
- Staffing utilization review
- Staffing resources and planning
- Compliance with state laws, guidelines
- Board policy and administrative regulations
- Conflict of interest guidelines and policies.

These program level duties are important for performance audit reviews to assure the community that capital resources are being planned and expended with a clear audit trail.

3.3.1.1 Project Staffing and Rates

Because no projects have been identified it is difficult to determine project staffing at this time. However KCS project management has a long history of managing projects on occupied schools and is determined to find the most efficient management process for each individual project. Our promise to you is to never overstaff your projects if the scope is simple and achievable with less staff. Below is our proposed fee schedule for your program.

<table>
<thead>
<tr>
<th>Position</th>
<th>Hourly Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Project Executive</td>
<td>$ 150.00</td>
</tr>
<tr>
<td>Project Manager/Schedule</td>
<td>$ 130.00</td>
</tr>
<tr>
<td>CM / Constructability</td>
<td>$ 98.00</td>
</tr>
<tr>
<td>Project Engineer / Drone</td>
<td>$ 84.00</td>
</tr>
<tr>
<td>Administration</td>
<td>$ 68.00</td>
</tr>
</tbody>
</table>

Quoted Rates are fully burdened and include all General and Professional Liability, Workers Compensation, Auto Insurance and other required insurances. A 3% escalation may apply after each subsequent year of the program.
3.3.1.2 Approach

In regards to our approach to project and cost management, Knowland Construction Services has developed a Construction Project Administration Manual for use on our management contracts. The KCS Project Manual is focused on K-12 schools specifically and details procedures and policies for project management that covers the duties and responsibilities of the project team including the AOR, PI, Construction Manager and District Representative. Duties and responsibilities of the team members will be reviewed with district staff to ensure roles, responsibilities, and expectations are clearly defined and understood by all team members.

Our KCS K-12 Project Administration Manual provides a structured approach to each stage of the management process including Pre-bid, Bid and Award, Construction Phase, Contract Change Order/Allowance Procedures, and Close-Out Post Construction. Our K-12 Manual includes numerous checklists regarding risk assessment, schedule and standardized forms for each of the stages. Our approach is to review each stage with the client and determine how each individual project can be customized with appropriate services.

Contract change management is a primary focus area of our manual. Change management is of major concern to Board of Education and administrative staff. We have established procedures that can be modified to fit your particular culture and environment. Allowances can be utilized to offset changes to particular areas such as program and unforeseen conditions. Clear descriptions of a change process can help mitigate concerns at the board approval process. Changes must be managed in a coherent manner. We have developed a process of continuous checks and balances regarding scope identification, scope adherence and clear responsibilities to minimize changes to the project environment. In addition, KCS has developed a set of checklists from the DSA 152 Inspection Manual and the Project Inspector Overview courses for use as a constructability framework for review of the AOR’s plans and documents. KCS believes that third party estimators and constructability engineers can provide invaluable resources for a check of the construction documents and can employ this additional check for cost and scope management.

3.3.2 Computer Project Management / Scheduling & Electronic Design

Knowland Construction management understands the responsibility of managing schedule information. Our checklist system for managing contractor schedules includes ensuring baseline and update schedules meet the requirements of the districts Division 1 and General Condition’s requirements. Our schedule review includes crew resources, cost loading, district milestone identification, calendar identification, proper Critical Path Method logic, durations and weather constraints. In this time of Covid-19, KCS is aware of the impacts to production by OSHA guidelines regarding distancing and cleaning protocols and will ensure that the bid documents properly reflect the requirements for worker safety.

At KCS we believe in a Problem Identification Process which identifies problems as early as possible so that damages and delays can be determined before a claim is submitted. Claims can be mitigated if caught early in the construction process. We believe in the proper updating of the schedule on a monthly basis to discover problems. In addition KCS believes that daily and weekly production tracking is critical for effecting monitoring of the contractor progress.

KCS utilizes Microsoft Project for broad program and project scheduling on smaller projects. Primavera P6 will utilized for larger projects with more activities. KCS utilizes Procore project management software and Bluebeam for managing project information. We have a cloud-based server which stores all project documentation and is utilized by all staff.
Knowland Construction Services may utilize subconsultants for schedule updates or areas of specific interest such as fenestration consultants, CASP, special inspection, or areas where KCS employees may not have the expertise. KCS provides healthcare, matching 401K, continuing education, and provides in-house training to our own personnel. KCS maintains a fully staffed office with a library of technical expertise.

Based on information provided in the RFQ, the only potential consultant KCS may require is Roy Combs. Roy Combs has worked with KCS for more than 20 years. Roy is an excellent scheduler, a licensed contractor, and knows plumbing and mechanical as well as anybody in the industry. Chris Knowland and Roy Combs worked for the same construction management firm in the 1990’s and work well together.

3.5 REFERENCES

Beverly Hills Unified School District
$400 million

Knowland Construction Services has provided construction management as well as DSA inspection services for various projects at BHUSD since 2013. Current projects at Beverly Hills High School include a historical renovation and seismic upgrade of buildings B1, B2 ($65 million), and the ($100 million) Salter’s Theater and Peters Auditorium seismic and historical upgrade projects. These projects involve installation of micro piles, spall repair of structural concrete utilizing GRFP reinforcement on columns, walls, and ceilings, and the repair of existing architectural details on the building. Other projects include El Rodeo Elementary School which is going through a $92 million seismic and historical renovation, Horace Mann Middle School which was a $90 million new construction project and historical renovation. Project delivery is lease-leaseback and Design Bid Build.

Identify the largest project, in dollars, which your company has initiated or completed within the past five (5) years:

___ Jordan High School - LBUSD. $156 million phased project approximately 70% complete. 5 year project duration.
ANSWER THE FOLLOWING QUESTIONS

1. Is the company or its owners connected with other companies as a subsidiary, parent, affiliate, or holding company? Yes No If yes, explain on a separate, signed sheet.

2. Does the company have an ongoing relationship or affiliation with an equipment manufacturer? Yes No If yes, explain on a separate, signed sheet.

3. Has the company (or any owner) ever defaulted on a contract forcing a surety to suffer a loss? Yes No If yes, explain on a separate, signed sheet.

4. In the past five (5) years, has the company had any project with disputed amounts more than $50,000 or a project which was terminated by the owner, owner’s representative or other contracting party and which required completion by another party? Yes No If yes, explain on a separate, signed sheet. State the project name, location, owner/contact person, telephone number, contract value, disputed amount, date and reason for termination/dispute.

5. Has the company, an affiliate company, or any owner ever declared bankruptcy or been in receivership? Yes No If yes, explain on a separate, signed sheet.

6. Has the company ever had an arbitration on contracts in the past five (5) years? Yes No If yes, explain on a separate, signed sheet. State the project name, location, owner/contact person, telephone number, contract value, disputed amount, a brief description and final resolution.

7. Does the company have any outstanding liens or stop notices for labor and/or materials filed against any contracts which have been done or are being done by the company? Yes No If yes, explain on a separate, signed sheet. State the project name, location, owner/contact person, telephone number, amount of dispute, and brief description of the situation.

THE UNDERSIGNED DECLARES UNDER PENALTY OF PERJURY THAT ALL OF THE INFORMATION SUBMITTED WITH THIS PROPOSAL IS TRUE AND CORRECT.

PROJECT REFERENCE FORM

Provide information for the past five (5) years for contracts that your firm has completed, or has in progress, which most closely represents the services requested in this RFQ. Provide the following information:

1. Project title and location
2. Name, address, and phone number of contact person
3. Nature of firm’s responsibility
4. Type of contract (performance, direct cost, etc.)
5. Contract amounts
6. Start Date
7. Current status

For one of the above projects, provide a cost breakdown of the following project components: technical analysis, design and implementation, project management, monitoring, training, educational programs, maintenance (if any), and budgeting.

At Placentia-Yorba Linda USD, the primary construction project was the Performing Arts Center at El Dorado. The Performing Arts Center (PAC) is a 640 seat facility with a fly loft and control booth, entry lobby, ticket booth, changing facilities and backstage area. The state of the art facility contains catwalks, acoustic clouds, sound system and lighting systems to accommodate multiple theatre, orchestra, choral, musical and instrumental uses. The PAC project was a part of a larger program that required relocation of modular buildings, additional tennis courts, and additional parking. The project also included the removal of historic trees.

Project Delivery Type: Lease Leaseback (competitive)
Overall Program/Project costs: $18 million
Performing Arts Center: $12 million
Architectural fees: $1.5 million (approx.)
Project management fees: $1.1 million
Technical analysis: Part of architectural fees
CEQA analysis: $35,000 (The Planning Center)
Maintenance Costs User Fees Pays for Maintenance Costs
Training Fees: All training conducted by District Theatre Supervisor
Budgeting: Fiscal budgeting accomplished in house in Facilities Dept.
Educational Programs: District school site performing arts programs (K-12)
FF and E:
Classroom furniture modulars: $60,000
Performing Arts: $200,000 (control board, microphones, music stands, chairs etc.)
Historic tree removal: $6,000
Provide information for the past five (5) years for contracts that your firm has completed, or has in progress, which most closely represents the services requested in this RFQ. Provide the following information:

Arcadia Unified School District
Arcadia High School Performing Arts Center. 180 Campus Dr., Arcadia, CA 91006
Director of Facilities - Jim Leahy (626) 808-7777 james.leahy72@gmail.com
Architect - LPA Architects - Darcie Gumbayan (949) 701-4117 dgumbayan@lpainc.com

KCS was originally brought in to replace the original contracted inspection firm which had a dispute with the District. After performing DSA Inspections on more than twenty other projects at different sites, KCS was asked to act as the Project Manager for the District's new $20 million Performing Arts Center. KCS worked with the District in the development of the RFQ for an LLB contractor, including interviewing and selecting contractors. KCS performed constructibility review of the plans and specifications; managed submittals, monitored the schedule; documented meeting minutes and coordination meetings; evaluated and negotiated contingencies and change orders; approved pay applications; maintained litigation management documentation; scheduled inspections for the IOR and Testing Lab; performed quality control review; performed punchlist; owners manuals and warranties, close-out documentation. Software included Procore, Bluebeam and Bim. KCS fees were billed on hourly rates with the project contracted at approximately $713,856.00. Primary KCS personnel included Chris Knowland, Dave Koenig (also worked at Anaheim Union), and Dan Alberico. KCS has worked with Dan Alberico for more than 15 years. The project utilized Lean Construction Techniques, pull planning, and off-site panelized construction of various components including mechanical systems. The Performing Arts Center was one of the most successful projects in the District's bond program. Other project deliveries were managed by McCarthy- Gary Attridge (949) 500-2625.

REQUEST FOR PROPOSALS AND STATEMENT OF QUALIFICATIONS FOR CONSTRUCTION MANAGEMENT SERVICES

STATEMENT OF NON-CONFLICT OF INTEREST

The undersigned, on behalf of the consulting firm set forth below (the “Consultant”), does hereby certify and warrant that, if selected, the Consultant while performing the consulting services required by the Request for Qualification, shall do so as an independent contractor and not as an officer, agent or employee of the Newport Mesa Unified School District (“the District”). The undersigned further certifies and warrants that: (1) no officer or agent of the Consultant has been an employee, officer or agent of the District within the past two (2) years; (2) the Consultant has not been a source of income to pay any employee or officer of the District within the past twelve (12) months; (3) no officer, employee or agent of the District has exercised any executive, supervisory or other similar functions in connection with the Consultant Agreement or shall become directly or indirectly interested financially in the Consultant Agreement; and (4) the Consultant shall receive no compensation and shall repay the District for any compensation received by the Consultant under the Consultant Agreement should the Consultant aid, abet or knowingly participate in violation of this statement.

FIRM PROPOSAL / OFFER FORM

This Proposal/Offer Form must be duly executed and submitted with any proposal/offer to NMUSD.

The Offeror hereby agrees that its proposal/offer is subject to all RFQ # 114-21 provisions, terms and conditions, attachments, exhibits, amendments and other applicable materials which are attached or incorporated by reference. Offeror hereby agrees to promptly enter into an agreement in substantial accordance with such RFQ provisions, terms and conditions, and secure a performance bond within five (5) days of the Districts intent to award the contract.

The Offeror hereby agrees that its attached proposal/offer of which this is part, is a firm and irrevocable offer and valid for acceptance by NMUSD for the period sixty (60) days after closing. The Offeror hereby agrees that if its proposal/offer is accepted by SAUSD that it shall provide all of the services in accordance with the RFQ, as it may be amended.

NONCOLLUSION DECLARATION
Public Contract Code § 7106

TO BE EXECUTED BY SUBMITTER AND SUBMITTED WITH RFQ

The undersigned declares:

I am the [PRINT YOUR TITLE]
of [PRINT FIRM NAME].

The party making the foregoing Contract.

The RFQ is not made in the interest of, or on behalf of, any undisclosed person, partnership, company, association, organization, or corporation. The RFQ is genuine and not collusive or sham. The submitter has not directly or indirectly induced or solicited any other submitter to put in a false or sham RFQ. The submitter has not directly or indirectly colluded, conspired, connived, or agreed with any submitter or anyone else to put in a sham RFQ, or to refrain from submitting. The submitter has not in any manner, directly or indirectly, sought by agreement, communication, or conference with anyone to fix the RFQ price of the submitter or any other submitter, or to fix any overhead, profit, or cost element of the RFQ price, or of that of any other submitter. All statements contained in the RFQ are true. The submitter has not, directly or indirectly, submitted his or her RFQ price or any breakdown thereof, or the contents thereof, or divulged information or data relative thereto, to any corporation, partnership, company, association, organization, RFQ depository, or to any member or agent thereof, to effectuate a collusive or sham RFQ, and has not paid, and will not pay, any person or entity for such purpose.

Any person executing this declaration on behalf of a submitter that is a corporation, partnership, joint venture, limited liability company, limited liability partnership, or any other entity, hereby represents that he or she has full power to execute, and does execute, this declaration on behalf of the submitter.
I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration is executed on the following date:

### 3.7.8 Hourly Fee Schedule

<table>
<thead>
<tr>
<th>Position</th>
<th>Hourly Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Project Executive</td>
<td>$ 150.00</td>
</tr>
<tr>
<td>Project Manager/Schedule</td>
<td>$ 130.00</td>
</tr>
<tr>
<td>CM / Constructability</td>
<td>$ 98.00</td>
</tr>
<tr>
<td>Project Engineer / Drone</td>
<td>$ 84.00</td>
</tr>
<tr>
<td>Administration</td>
<td>$ 68.00</td>
</tr>
</tbody>
</table>

Quoted rates are fully burdened and include all General and Professional Liability, Workers Compensation, Auto Insurance and other required insurances. A 3% escalation may apply after each subsequent year of the program.
**Evaluation of Firms:** All responses will be scored using this evaluation sheet. A minimum score of 80% is required to qualify for the 2nd round of evaluation which includes review by a panel. Up to 10 additional points may be awarded in the second round based on subjective determination of the Firm’s ability to carry out the required work. NMUSD will select the top-rated firms to be awarded the contracts for these services.

**Instructions:** Fill-in a response for each question in Sections 1-4 below. Each correlates to a required element in the RFQ Response Format.

**Firm:** Knowland Construction Services
