DSA Project Inspection Services

Submittal Date: May 6, 2021
3.1. BUSINESS PROFILE
3.1. BUSINESS PROFILE

As one of California’s leading firms for inspection services, TYR, Inc. specializes in providing DSA and OSPD inspections in accordance with California Title 24.

3.1.1. Firm Legal Name: TYR, Inc.
Type: “S” Corporation
Years in Business: 18 Years
Home Office Location: 796 Wonder Lane, Costa Mesa, CA 92627
Independently owned and operated since April 15, 2003
Federal Tax ID Number: 14-1880444
Primary Contact: Youssef Sobhi, President, (714) 717-6489, ysobhi1@msn.com
Secondary Contact: Megan Lonski, Office Manager, (949) 524-3020, mlonski@tyrior.com

3.1.2. OWNERSHIP STRUCTURE
As stated above, TYR, Inc. was established as an “S” Corporation in the State of California on April 15, 2003. TYR is independently owned and operated and is not submitting this proposal as part of any Joint Venture.

Our firm, TYR, Inc. is legally permitted and licensed to conduct business in the State of California, per State of CA Tax ID No. 259-9457-5 and business entity number, C2530457. We are registered with the Department of Industrial Relation (DIR); our registration number is 1000004500. Additionally, TYR, Inc. is a SBE and our certification number is 1760248.

FIRM HISTORY
As a leading construction inspection firm in California for the last 18 years, we are committed to providing our clients with the highest quality inspection services possible. We are headquartered at 796 Wonder Lane, Costa Mesa, California, 92627, just 3 miles from the Newport-Mesa District office. This locality and our large number of inspection staff allows us to provide our services on demand, as well as allow us to provide more cost-effective proposals to our clients.

We occupy a unique position in our industry; our scope of services is strictly providing construction and building inspections. Our firm currently employs over 40 ICC, Class 1, 2, and 3 DSA Inspectors and Class A, B, and C OSPD Inspectors who have been carefully screened and have experience with different types of project bid styles. Our inspectors are multi-licensed and have full knowledge of the Division of State Architect (DSA), Office of Public-School Construction (OPSC), California Department of Education's codes and regulations, and Leadership in Energy and Environmental Design (LEED).

We take pride in and are committed to providing the best possible customer service to our clients. Loyalty to our clients is one of our firm’s core values. Our firm always has the client’s best interest in mind and is always ready to assist with any situations or client needs that may arise during a project. Our strong relationships with our clients are due to the professional level of services we provide our clients. This has allowed us to build an honorable reputation in this industry.

A HISTORY OF PROVEN SUCCESS WITH PUBLIC AND PRIVATE SECTOR CLIENTS
We are honored to have worked with with exceptional school districts such as: Irvine USD, OC Department of Education, Capistrano USD, Long Beach USD, Bellflower USD, Montebello USD, Inglewood USD, Compton USD, Pomona USD, Lynwood USD, Chino Valley USD, Whittier City SD, Mountain View SD, Los Angeles USD, Azusa USD, and Claremont USD. In addition, we have also served numerous universities, colleges, and public work projects including North Orange County CCD, Coast CCD, Long Beach CCD, California State University, Los Angeles, Los Angeles CCD, Cerritos CCD, and the San Diego County Courthouse. TYR, Inc has successfully responded to the personal and technical demands requested of us and we continue to provide a level of quality unparalleled in our industry.

Please see Section 3.2.2. Project Listing for more detailed information regarding TYR’s extensive project inspection experience.

Our inspectors are not only exceptionally qualified in their field, but they also comprehend and are fully aware of the importance of their work in the communities we serve. We are committed to providing excellent inspection services. In conclusion, we have built great client relationship on the foundation of trust and hard work. We have met and continue to commit to the demands and requirements of our clients to ensure successful, safe projects and satisfied clients.

Please note that due to the intense demands of the market, inspector availability is subject to change. Additional resumes of equally qualified and capable inspectors would be available to the Newport-Mesa Unified School District should the proposed personnel be unavailable at the time of project commencement.

Inspector Responsibilities

TYR, Inc. provides comprehensive IOR services like no other in the industry. Our inspector’s will be working side-by-side with the project team. Our team supervisor and inspectors will first fully comprehend project plans and specifications. They will coordinate work through preconstruction meetings with all project team members prior to the start of the project; in which, all details of schedule progress, delivery of material, and all underground utility agencies will be coordinated to avoid any future delays. Our inspectors will also maintain complete filing systems on site that include but are not limited to:

- Complete copies of approved project plans and specifications with complete sets of as-built drawings. In addition, copies of all project addendums.
- Copies of all project submittals, RFI logs, as-built approved drawings, orders, test and special inspection reports, deviation reports, and daily reports, any documents or directives received for responsible design professional.

TYR, Inc.'s inspectors are trained and experienced on projects with a general contractor, multiple prime, or design build. The inspectors will provide on-site continuous inspection during all phases of construction. This includes, but is not limited to:

- Fully observing all construction operation throughout the phases of construction. The inspectors will also report to the client any necessary corrections needed to any problems or conflicts they might encounter.
- Verify approved material as per approved submittals and all appropriate equipment to deliver the correspondent's work.
- Report any items that may require correction to the immediate attention of the contractor and issue any correction notice, if needed, to ensure the work meets the plans and specifications.
- Inspection for required excavation includes required trench shoring, earth moving operations and monitor soil testing.
- Verify and inspect all ADA, fire and life safety issues in compliance with approved plans.
- Our inspectors are experts on all site work and green book requirements and will perform all necessary inspections for the following: curbs, gutters, catch basins, culverts, and junction structures. Inspection will be completed for all SWPPP (Storm Water Pollution Prevention Plan) and BMP (Best Management Plans). Inspection will also be made for grading, sub-grade, base, and all AC paving placements as per green book and approved plans.
- Our inspectors are experts in all MEP (Mechanical, Electrical, and Plumbing) issues that may arise during the project, such as: HVAC, VAV, three phase transforms, storm drain and run off system, interior plumbing required pipes and materials, etc.
• Will monitor and supervise all testing labs and special inspection requirements. Inspectors will also provide in detail, testing and inspection full program requirements and will communicate all information with county resident engineer.

• The inspectors will work with the project team to solve any conflicting issues that may arise in the plans and specifications and seek the county engineer’s help for all necessary interruptions of project documentations. They will also enforce all local and applicable codes.

• Inspectors on-site will observe and report any safety violations, labor compliances, relation issues or problems.

• Provide daily reports, digital photos, and complete on-site filing systems for all project documentations, such as, RFI’s, change orders, addendums, etc. These documents will be available on site and a copy of all reports will be sent to the county along with any required reports.

• Issues requiring verified reports as per CBC and submission of final reports.

• All inspections will be done with the form of inspection requests. All work will be certified, compliant, and all punch list items will be inspected as required before final completion.

• Inspectors will provide any additional services that may be required by the county such as monitoring abatement for hazardous material, waterproofing and roofing, medical gas certification, review monthly payment application, monitor all T&M work, maintain necessary logs for all quantities prepare and review monthly payment applications, and recommend drafts prior to final county approval based on progress of work. They will also deliver material to the job site.

• All our inspectors are certified with ICC to perform all required special inspection tasks, if needed, to help cut some of the testing costs such as: steel rebar placement, concrete placement, testing and consolidation, structure steel high strength bolting, welding, masonry placement, and spray applied fire proofing.

Our inspectors will work with the project team in the capacity of being their eyes and ears on-site to ensure all work is executed in accordance with approved plans, specifications, and all applicable codes.

FIRM ORGANIZATIONAL CHART

INSPECTOR RESUMES
Please see the included resumes for the proposed personnel for specific information regarding inspector certifications, licenses, and experience.
KAMAL ISRAIL

Mr. Israil has over 35 years of hands-on experience in the construction industry. His experience includes job site operations, such as coordinating activities, project scheduling, planning techniques, cost analysis, and vendor selection process, while also providing quality control checks and ensuring that projects are completed on time and according to the contract conditions. Mr. Israil demonstrates a strong understanding of the construction process in a very professional manner. He is flexible and works well with the entire construction team when it comes to changes and managing them. Mr. Israil has also worked as a Project Superintendent and General Contractor.

- Mr. Israil has been employed by TYR, Inc. for 10 years.

LICENSES AND CERTIFICATIONS
- DSA Class 1 Inspector, Certificate No. 5771
- CAL OSHA Certificate
- ACI Field Testing Technician Grade I

EDUCATION
- B.S. Civil Engineering

PROFESSIONAL EXPERIENCE – INSPECTOR OF RECORD

PASADENA UNIFIED SCHOOL DISTRICT
Blair Magnet School 9th Grade Classroom & Amphitheater – DSA No. 03-113709 – $22.8 Million – Modernization
Remodeling of 85,277 S.Q. three-story building.
- Field Inspection: Provided complete inspection for all structure elements including all required seismic upgrades to existing building, concrete placement, structure steel bracing system, and lateral supports. Provided continuous inspection for items such as metal studs, drywalls and acoustical ceiling wires, sway bracing, installation for all new above ceiling ducts, and HVAC system including all required seismic restraints, and installation of AC units. Also provided inspection for electrical including conduits and raceways, required wires and underground cabling system, installation for all lights, and required bracing. Provided inspection for underground pipes and building plumbing system, building's new fire rating system, building accessibility, and exterior building path of travel.

EL MONTE UNION HIGH SCHOOL DISTRICT
Ledesma High School Multi-Purpose Building – DSA No. 03-116188 - $9.5 Million – New Construction
Construction of 1-multi-purpose building.
- Field Inspection: Provided inspection for structure concrete foundation including geotechnical and compaction for existing soil and reinforcement and concrete placement and consolidation, inspection for structure steel lateral bracing system and exterior lath and plaster. Inspected all building MEP including rough in for all conduits and raceways as well as interior metal studs and drywall. Inspected building FLS including fire alarm, sprinkler and fire rated walls and penetration as per required UL assemblies. Inspection included all building accessibility and exterior POT, and site work and associated sidewalks, gutters, ramps, and AC paving.

COLTON JOINT UNIFIED SCHOOL DISTRICT
Grand Terrace High School – DSA No. 04-107480 – $87.8 Million – New Construction
new construction of 11 classrooms buildings, science lab, kitchen, cafeteria, gymnasium, lecture hall, locker room new stadium, swimming pool, soccer field, softball field, two baseball fields, six outdoor basketball courts, and four tennis courts and 7 parking lots. Buildings consist of CMU walls, steel structure, and metal stud walls.
- Field Inspection: Assisted throughout the project on inspection for structure including all geotechnical process for import and export material, compaction and other required testing, concrete formwork, placement, consolidation, CMU include layout, embedment installation, mortar and grouting, structure steel and welding for moment frame connection, as well as inspection for high strength bolting. Provided inspection for building interiors for metal studs and drywall and exteriors including lath and plaster. Provided complete inspection for curtain wall installation and monitoring for negative pressure testing throughout. Inspected several building roofing systems and for interior finishes including doors, windows, cabinets, flooring, etc.
Colton High School – DSA No. 04-111223 – $1.5 Million – New Construction
Ten (10) Interim housing buildings, restroom building including asphalt and chain link fence, relocatable classrooms, and restroom addition.
  • Field Inspection. Provided complete inspection for all site geotech and compaction and all required structure inspection for foundation and installation for relocatable building, inspection for MEP and tie to site underground utilities. Included acoustical ceiling, fire alarm, and tie to onsite addressable system as well as complete inspection for accessibility and site path of travel.

El Monte City School District
Durfee Elementary School – DSA No. 03-114463 – $11.6 Million – New Construction
Built new administration, library and multipurpose building included all underground utilities, concrete site work, landscape work and ADA ramps and wheelchair lift.
  • Field Inspection. Provided inspection for all geotechnical activities including soil import and stabilization, and compaction, structure concrete foundation, inspection for all wood hardware connectors, ties, straps, and plywood for interior and exterior walls, verification for shear walls and roofing system installation, and exterior lath and plaster. Provided inspection for interior wood framing, including studs, hold down, AB, and Glu lam beams installation, interior drywall, and interior finish, as well for, underground utilities including tie to city connection, and interior rough in for MEP.

Rio Hondo Elementary School – DSA No. 03-115163 – $2.9 Million – Modernization
HVAC upgrades – new teaching walls at 8 buildings B, C, D, E, F, G, K & T which included remodeling the classrooms.

Durfee Elementary School – DSA No. 03-115114 – $2.8 Million – Modernization
HVAC upgrades – new teaching walls at buildings B & C which included remodeling 24 classrooms.

Long Beach Unified School District
Lakewood High School – DSA No. 03-118422 – $10 Million – Modernization
Remodeling for 9 Buildings and upgrade the HVAC system for all and new Electrical service with new SCE switch gear.

Lynwood Unified School District
Lynwood High School – DSA No. 03-115552 – $3.5 Million – Modernization
Remodeling the school field with new turf and track surface including new goal posts and athletic equipment.
  • Field Inspection: All earthwork and geotechnical compaction, import required soil and verification for all soil mechanical properties. All underground utilities including electric, plumbing, and complex irrigation system, verification. Project accessibility and ADA requirements.

Chaffey Joint Unified School District
Chaffey High School – DSA No. 04-113653 – $3 Million – Modernization
Upgrade the HVAC system at the Auditorium Building, New Central Plant Building for The Chiller equipment’s and the ADA path of travel.

Mountain Unified View School District
4 Solar Panel Project in 4 Schools – DSA No. 04-116019, 116020, 116021 & 116072 – $3 Million – New Construction
Built new shade structure with solar panel roof per the DSA approved PC in several schools with electrical work.

Pomona Unified School District
San Jose Elementary School – DSA No. 03-114058 – $13.6 Million – Modernization
Demolition, abatement of buildings. Work inspected to make sure building was safe and inspected the shoring walls and reviewed the existing bearing walls and shear walls. Alterations to campus entry, parking lot, POT, building B and classroom buildings C, D, E, F and related site work and classroom building A. Construction of 8 permanent modular buildings H1, H2, H3, G1, G2, G3, G4 and J, new lunch shelter, two walls and trash enclosure.

Diamond Ranch High School – DSA No. 03-116482 – $2.5 Million – New Construction
12 Solar canopy, concrete footing, steel structure, electrical work, and ADA parking lot.

Diamond Ranch High School – DSA No. 03-116482 – $2.5 Million – New Construction
Built Solar panels at the parking lot.

Diamond Ranch High School – DSA No. 03-115031 – $1.5 Million – Modernization
Alterations to construction of gates, fencing, street lighting and modification to accessible parking and gymnasium building.
Cortez Elementary School – DSA No. 03-116467 – $615K – New Construction
6 Solar canopy, concrete footing, steel structure, electrical work, and ADA parking lot.

LA HABRA ELEMENTARY SCHOOL DISTRICT
Imperial Middle School – DSA No. 04-113342 – $2.7 Million – Modernization
Alterations to 3 - Classroom buildings E, F and G.
Washington Middle School – DSA No. 04-113343 – $2.5 Million – Modernization
Alterations to Building E, G and J.

ADDITIONAL PROFESSIONAL EXPERIENCE

PASADENA UNIFIED SCHOOL DISTRICT
Superintendent - Elliot Middle School – DSA No. 03-104353, 103698 – $10.5 Million
New construction of ramp, science 9 / lab building fence walls, parking lot and 8’ CUM wall plus Alteration to administration, auditorium, classroom, gym, canteen and elevator stairs.
Superintendent - Webster Elementary School – DSA No. 03-103758 – $4.8 Million
Demolition of existing classroom building, abatement work under the District’s consultant, all communication with AQMD, new construction of classroom building and site work plus alteration/ addition to Administration, Classroom and Auditorium buildings.
Superintendent - Loma Alta Middle School – DSA No. 03-104245 – $3.3 Million
New construction of classroom building M &N alteration to classroom building A, B, C, D, E, F and H.

NORWALK LA MIRADA UNIFIED SCHOOL DISTRICT
Superintendent - Norwalk High School – DSA No. 03-106421 – $12 Million
Alteration to 8 classroom buildings, boy’s and girl's lockers, Multi-purpose, and kitchen.

ARCADIA UNIFIED SCHOOL DISTRICT
Superintendent - Highland Oaks Elementary School – DSA No. 03-111174 – $5.6 Million
Demolition of existing administration building, including shoring the existing electrical room, abatement work, and alteration to classroom, a new administration building new concrete ADA ramps, upgraded electric switchgear, panel's fire alarm, and low voltage.

ORANGE UNIFIED SCHOOL DISTRICT
Superintendent - Portola Middle School – DSA No. 04-108026 – $6.8 Million
Alteration to classroom, administration, Multi-purpose, and locker room buildings.

COVINA VALLEY UNIFIED SCHOOL DISTRICT
Superintendent - Sierra Vista Middle School – DSA No. 04-111841 – $4 Million
Alteration to classrooms, administration, multipurpose room, and locker room buildings

- CA General Contractor, Class B
- CA Emergency Mgmt. Agency, Building Inspector
- ICBO Building Inspector, UBC
- ACI Field Testing Technician, Grade I

EDUCATION
- B.S. Mechanical Engineering

PROFESSIONAL EXPERIENCE – INSPECTOR OF RECORD

CLAREMONT UNIFIED SCHOOL DISTRICT
Claremont High School New Student Services Center – DSA No. 03-119208 – $11 Million – New Construction
Construction of 1-New (2)-Story Student Service Center (Building S) and Site Improvements.

LOS ANGELES UNIFIED SCHOOL DISTRICT
South Los Angeles High School #3 – DSA No. 03-111606 – $111 Million
New construction of high school 5 buildings, 4-story steel frame building, 3 CMU buildings, cast in place 2-story reinforced concrete building, 3 elevators and central plant.
- Field Inspection: Provide inspection for the concrete, CMU walls, interior, exterior metal studs, curtain walls, windows. Overseeing the 12 special inspectors for steel, masonry, steel reinforcement, concrete, anchors, and fireproofing, reviewing the RFI's, submittals and shop drawings.

South Region Middle School #2 – DSA No. 03-110319 – $65 Million
New construction 3-story steel frame building, 1-story steel frame building contains administration, gymnasium, locker rooms, a library, multi-purpose room and underground parking.
- Field Inspection: Perform inspection for interior, exterior metal studs, insulation, drywall, fire stopping, ceilings, stucco, plaster, concrete, CMU walls and ADA compliance.

Huntington Park High School – DSA No. 03-112528 – $2 Million
Construction of Sport Field, synthetic turf field, flagpole footing, accessible gates, parking, and site work.

LOS ANGELES OFFICE OF EDUCATION
International Polytechnic High School – DSA No. 03-111139 – $22 Million
New high school, two buildings, 2-story steel frame 44,579 sq. ft. type II-1 hour sprinkled.
- Field Inspection: Perform inspection for concrete, CMU wall, metal stud framing, fire sprinkler, fire alarm, accessibility, and MEP throughout the project. Perform all duties as described in Title 24 of CBC and prepare all necessary reports. Oversee Assistant Inspector and 3 Special Inspectors for steel, concrete, and fireproofing.

BALDY VIEW REGIONAL OCCUPATIONAL PROGRAM
Bon View Campus Expansion & New Log Center – DSA Nos. 04-116837 & 04-116845 – $5.6 Million – Modernization
Alterations to 2-Classroom buildings 100 & 300, 1-Administration Building 400, 1-Site Improvement, Construction of 1-Classroom building 700, 1-Student center building 600, 1-Shade structure, & Construction of 1-Classroom building 800

COAST COMMUNITY COLLEGE DISTRICT
Golden West College Student Service Center – DSA No. 04-114433 – $22.5 Million – New Construction
Construction of a new 51,969 square foot building at the center of campus which will house all student services. This project also includes the relocation of the existing MDF room and other utilities prior to the demolition of the existing Library.
**Golden West College Gymnasium – DSA No. 04-112838 – $6 Million – New Construction**

New gymnasium, 70’ deep caissons, grade beams, structural slab on grade, wood framing, MEP, fire alarm and fire sprinkler.

**CHINO VALLEY UNIFIED SCHOOL DISTRICT**

**Solar installation Various Sites – $12 Million – New Construction**

Installation of solar panels at various sites.

**Chapparral elementary School Los Serranos – DSA No. 04-116715 - $3.6 Million – New Construction**

Construction of 1-Toilet Building T-1, 2-Shade Structures (32x32), 1-Site Improvements (including playground equipment, post tensioned concrete basketball court, picnic areas and exercise stations)

**Ramona Junior High School Kitchen Alterations – DSA No. 04-118665- $1.4 Million – Modernization**

Relocation of 4-Classroom Buildings 907, 910, 911, 912 (Relocatable) with New Ramps

**POMONA UNIFIED SCHOOL DISTRICT**

**Lorbeer Middle School – DSA No. 03-114665 - $6 Million – Modernization**

Modernizations, additions to fire alarm system upgrade, replacement for all buildings and upgrading MEP systems for the entire campus including of new switchgear installation. Installation of new steel beams to support the new HVAC units at the roof.

**Diamond High School – DSA No. 03-115411 - $2 Million – Modernization**

Alterations to gymnasium, cafeteria building, 4 classroom buildings, administration building, 7 relocation buildings and site improvements.

**GARVEY SCHOOL DISTRICT**

**Temple Intermediate School – DSA Nos. 03-107802 & 03-110032 – $3 Million**

New gymnasium building prefabricated steel brace frame with viscous dampers, 8000 sq. ft. – type II-1 hr. new locker rooms, restroom building, new accessible ramp, and fire lane.

- **Field Inspection:** Provide inspection for concrete foundation, steel, reinforcement steel, fire sprinkler system, fire alarm, asphalt paving MEP throughout the project.

**COVINA-VALLEY UNIFIED SCHOOL DISTRICT**

**Manzanita Elementary School – DSA Nos. 03-103117 & 03-106603 – $4 Million Modernization**

An additional $4 million, Multi-Use Building addition (570 sq. ft., and remodeling of three existing buildings, installing mechanical screens, site utility upgrades and new switchgear. Perform inspection for concrete foundation, wood framing, ADA, electrical, mechanical, and plumbing throughout the project.

**Las Palms Middle School – DSA No. 03-111493 – $2 Million – New Construction**

New construction of library building. Modular prefabricated structural steel building includes fire alarm system, new underground utilities, flat work, upgrading the existing restrooms to comply with the accessibility codes.

**Traweek Middle School – DSA No. 03-111147 – $2 Million – New Construction**

New construction of library building. Prefab structural steel building includes fire alarm system, new underground utilities, flat work, upgrading the existing restrooms to comply with the accessibility codes.

**Merwin Elementary School – DSA Nos. 03-107291 & 03-106602 – $2 Million – Modernization**

Bond for relocatable library building, 3840 sq. ft., prefab structural steel building, concrete foundation, flagpole, light standards, 2 ball CMU walls, new parking lot and new fire lane. An additional $2 million, modernization. New additions for the Administration and multi-use building, 1,295 sq. ft. remodeling of two existing buildings-32 classrooms, mechanical screens, new fire alarm system, site utility upgrades and new switchgear.

- **Field Inspection:** Perform inspection for concrete foundation, reinforcement steel, CMU walls, and fire alarm, ADA, electrical and plumbing underground.

**LONG BEACH UNIFIED SCHOOL DISTRICT**

**Carver ES & Henry ES Fire Alarm Phase 4 Project – DSA No. 03-118416 & 03-118419 – $1.4 Million**

Alterations to 2-Buildings B & C: HVAC Upgrades, 1-Carver ES Campus-wide Fire Alarm System, 1-Building E: Kitchen Exhaust Hood Replacement

LICENSE AND CERTIFICATION
- DSA Class 1 Inspector, Certificate No. 5490

EDUCATION
- Major Civil Engineer BSCE
- Diploma of home inspection

PROFESSIONAL EXPERIENCE – INSPECTOR OF RECORD

ROWLAND UNIFIED SCHOOL DISTRICT
Oswalt Academy New Campus – DSA No. 03-119817 – $40 Million – New Construction
Construction of 5-Buildings: Admin Bldg. #1, (2)-story Multi-Purpose Bldg. #2, Kindergarten Bldg. #3, (2)-story Classroom Bldgs. #4 & 5, and Site Improvements
Rowland High School Additions – DSA No. 03-115771 – $31 Million – Modernization

CHAFFEY JOINT UNION HIGH SCHOOL DISTRICT
Etiwanda High School Athletic Facilities Upgrade – DSA No. 04-113454 & 04-113686 – $20 Million – New Construction
Project. Build new sport fields (2 softball fields, 2 baseball fields, 8 tennis courts, 10 basketball fields and a new football & soccer field & athletic track, plus 2 sets of bleachers can accommodate 8000 persons. Construct about 5000 LF of concrete retaining walls + 3 CMU buildings. Installation of two sets of bleachers inside the existing gymnasium + ADA ramp and path of travel $2 million.

CHINO VALLEY UNIFIED SCHOOL DISTRICT
Briggs K-8 New Science Lab Building – DSA No. 04-117961 – $ 9.6 Million – New Construction
Construction of 1-classroom building E, 1-shade structure, 1-site improvements (including playground hardcourts, site fencing and gates).

SAN BERNARDINO CITY UNIFIED SCHOOL DISTRICT
Twenty (20) New SDC buildings – $42 Million
New construction project. Type IV construction, each building consisting of five classrooms, three kitchens and eight restrooms with the main structure elements shear and bearing walls supported by grade beams and stem walls provide hold downs varies from HD2A to DH2OA. The roof diaphragm consists of TJI spaced 24” at the flat part of the roof with 2 drag beams, and glue lam beams and 2 “x12” rafters at the sloped part of the roof.
Gomez E School – DSA No. 04-107198 – $16 Million – New Construction
New school consists of eight new buildings, concrete footings including grid beams, combined of wood and steel framing, steel moment frames, CMU walls, all onsite and offsite underground work, two steel shade structures, playground equipment’s, concrete flatwork, and landscaping.
Community Day School – DSA No. 04-113426 – $3 Million – Modernization
Alterations to 3-administration buildings, 5-classroom buildings, 1-classroom building, 3-classroom buildings, 3-classroom buildings, 1-classroom building, 2-toilet buildings; Relocation of 3-administration buildings, 5-classroom buildings, 1-classroom building, 3-classroom buildings, 1-classroom building, 2-toilet buildings.
Arrowhead, Kendall, Carmack & Harmon Schools Modernizations (Group 4) - DSA Nos. Various – $7 Million – Modernization
Full modernization – new fire alarm system – replacing all HVAC units in 2 schools, path of travel/accessibility, seismic upgrade,
and installing 12 portable classrooms.

**Hillside & Hunt Elementary Schools Modernization (Group 5) – DSA Nos. Various – $6 Million – Modernization**
Full modernization-replacing all HVAC units, path of travel, accessibility, seismic upgrade, and a new fire alarm system.

**Palm and Barton Elementary Schools – $5 Million**
New construction project. Adjacent lunch shelters, steel structure with concrete footings.

**Hunt E School phase II – $3 Million – New Construction**
Build a new kitchen, complete remodeling for administration building and building B classroom.
- **Field Inspection & Administration:** Duties included inspecting all concrete work, framing work, mechanical and electrical installations, all finishing stages and preparing daily and semi-monthly reports.

**ABC Unified School District**

**Cerritos High School – $2 Million – Modernization**
Field improvement - Reconstruct both the main field and the soccer field, new storm drain system, new irrigation system, new rubberized track, new bleachers, and installation of new field sport equipment's and new retaining wall.

**Perris Unified School District**

**Perris High School Stadium Completion – DSA No.04-111571 – $2 Million – New Construction**
Masonry of two new buildings with steel columns and steel roof. Buildings are around the stadium restrooms and toilet, one at home side and the other in visitor's side. Ornamental fence with the steel columns and CMU benches attached to the columns, plus flat work, and landscaping.

**Pomona Unified School District**

**Upgrade Fire Alarm System For 4 Schools – $1 Million – Modernization**
Upgrade fire alarm system.

**Other Project Inspection Experience**

**Azusa Unified School District**

**Gladstone High School – DSA No. 03-116754 – Modernization**
Alterations to 1-HVAC upgrade at gymnasium building.

**Slauson Middle School – DSA No. 03-116730 – Modernization**
Alterations to 9-HVAC replacement at buildings.

**Montebello Unified School District**

**Chavez Elementary School – DSA No. 03-115788 – Relocation**
Relocation of 2-classroom buildings.

**Chino Valley Unified School District**

**Cal Aero Portable and Lunch Shelter – DSA No. 04-118635 – New Construction**
Construction of 1-shade structure.

**Walnut Ave. Elementary School Shade Structure – DSA No. 04-119083 – New Construction**
Construction of 1-Structure Shade

**Chaffey Joint Union High School District**

**Etiwanda High School New Portable Classrooms – DSA No. 04-113964 – $263K – Relocation**
Relocation of 5-Classroom Buildings (Relocatable, A#04-105455), 1-Toilet Building

**Other Experience - Project Manager / Superintendent**

**Fontana Unified School District**

**Dorothy Grant / Lime Elementary Schools – $12 Million (2003-2005)**
New schools consisting of eight (8) buildings, the project includes all landscaping, roadwork, fencing, and playgrounds. Preparation and scheduling the construction and supervising all expansion work.

• Continuing ACIA Classes

PROFESSIONAL EXPERIENCE – INSPECTOR OF RECORD

PERRIS UNION HIGH SCHOOL DISTRICT

Perris High School # 4 – DSA No. 04-114675 – $150 Million – New Construction
This lease-leaseback project is the construction of a new high school campus on an approximately 52-acre site. The project includes the construction of three classroom buildings, an administrative building, a multipurpose building, a theater building, a science building, a gymnasium building, a sport field, a concession/press box, six stadium light poles, three concession/toilet buildings, a maintenance equipment building, and three shade structures. The school is scheduled to open in August 2021.

California Military Institute – DSA No. 04-112124 – $3 Million – New Construction
New building, Type VB, Masonry building. New masonry classroom building including over-excavation and re-compaction of foundation soils, structural concrete, new electrical for switchgear and main for entire campus, new gas main for entire campus, new underground fire sprinkler main, and water and drainage for new building.

California Military Institute – DSA No. 04-112373 – Modernization
Relocation of modular buildings. Project involved over-excavation for a structural concrete slab to support modular buildings set on wood foundations, fire alarm system, new electrical switchgear and plumbing for a modular bathroom building.

COAST COMMUNITY COLLEGE DISTRICT

Golden West Community College (Criminal Justice Building) – DSA No. 04-115316 – $18 Million – New Construction
Construction of 1-Criminal Justice Classroom Building. This new 43,600 SF two-story building includes classrooms, locker rooms, training rooms, simulation labs, fitness lab, ready room, mat room, armory, scenario labs and an administration suite and multi-purpose room. Outdoor areas include a grinder area, biddle course, parking, traffic stop street, a scenario village, and a memorial.

EL MONTE UNION HIGH SCHOOL DISTRICT

Rosemead High School – DSA No. 03-110567 – $16 Million – New Construction
New building, Type V, 1-hour construction. New wood framed, two story classrooms building which involved over-excavation and re-compaction of foundational soils as well as structural concrete footings. Building included a new fire sprinkler system with new main, new switchgear, and a laboratory. Campus upgraded entire electrical system, integrated a new fire alarm system, a new fire sprinkler system, new storm drain system, ADA upgrades throughout (including all bathrooms), new site fire water system with new fire hydrants, new parking lots, and a new synthetic running track.

RIO HONDO COMMUNITY COLLEGE DISTRICT

Rio Hondo College Applied Technology Center – DSA No. 03-110360 - $12 Million – New Construction
Type V, 1-hour construction. Project was a new applied technology center including an automotive repair shop, an auto body shop, an auto tune-up center, and a welding shop. Demolition of two existing buildings and structural upgrades were made to accommodate car lifts, hoists, new ventilation system, shear wall upgrades, and footing reinforcement. Infrastructure included new underground utilities, and new underground fire water system with 3 new fire hydrants, and electrical upgrades which involved underground runs back to the main campus switchgear. Project included a new paint spray booth, new dynamometers, fire rating upgrades throughout the buildings, ADA upgrades to all adjacent parking lots, new fire sprinkler system, new Co2
detection system with full exhaust and ventilation, new oxy-acetylene gas piping system for the welding booths, and an epoxy flooring finish throughout.

**Rio Hondo College-Pedestrian Bridge – DSA No. 03-110379 – $1.5 Million – Modernization**

Project was a 150’ steel pedestrian bridge. Project included 30’ structural concrete piles at each end of the bridge which needed to be augered and filled with concrete in a specific order to avoid any caving in. Bridge was constructed of welded and bolted steel beams and a cable support system. Bridge also included a lighting system above and below the bridge.

**PARAMOUNT UNIFIED SCHOOL DISTRICT**

**Rosecrans Elementary School – DSA No. 03-104384 – $8 Million – New Construction**

Construction of Admin Building 4 Classroom Buildings, Multi-purpose Building, 4 Toilet Buildings, Lunch Shelter & CMU Walls.

**CHAFFEY JOINT HIGH SCHOOL DISTRICT**

**Chaffey High School Auditorium Modernization – DSA No. 04-115640 – $10.1 Million – Modernization**

Additions to 1-Auditorium Building M (New Stair & Elevator Tower); Alterations to 1-Auditorium Building M

**RIVERSIDE OFFICE COUNTY OF EDUCATION**

**Arlington Regional Learning Center – DSA No. 04-102898 – $6.5 Million – New Construction**

New school which involved two 2-story wood framed buildings and one single story wood framed building. Project scope included all over-excavation and re-compaction of foundation soils, all new utilities, etc.

**ALHAMBRA UNIFIED SCHOOL DISTRICT**

**Marguerita Elementary School – DSA No. 03-112550 – $5 Million – New Construction**

New building, Type V, 1-hour construction. New steel construction building including over-excavation and re-compaction of foundational soils as well as structural concrete footings. Project also involved a new fire sprinkler system, new electrical switchgear, water and waste for bathrooms, and new ADA upgrades to the existing campus.

**MONTEBELLO UNIFIED SCHOOL DISTRICT**

**Schurr High School Aquatic Center – DSA No. 03-110760 – $4 Million – Modernization**

New pool and Three Type III- 1 hr., Masonry & steel buildings. New aquatics center of masonry construction which included over-excavation and re-compaction for foundation stability, structural concrete footings, shotcrete pool walls, structural masonry, plumbing for pool & bathrooms, & new electrical switchgear.

**RANCHO SANTIAGO COMMUNITY COLLEGE**

**Santiago Canyon College (Maintenance & Operation Building) – DSA No. 04-108423 - $3 Million – New Construction**

A Construction of 1, maintenance and operations building, 1 - Parking CANOPY, 2 - Enclosure/s[Utility/Trash], Sitework.

**LA HABRA SCHOOL DISTRICT**

**Serría Vista Elementary School – DSA No. 04-104131 – $2.7 Million – New Construction**

Two new wood frame buildings.

**SAN BERNARDINO CITY UNIFIED SCHOOL DISTRICT**

**Serrano Middle School – DSA No. 04-103644 – $2.5 Million – Modernization**

Project scope included ADA Upgrades throughout the campus, new modular buildings set on wood foundations with new underground electrical, plumbing, and fire water.

**JUDICIAL COUNCIL OF CALIFORNIA**

**San Diego Central Court – $555 Million – New Construction**

New Building, 26 story high-rise steel construction. New California State funded courthouse building including three below ground stories and 23 stories above ground. Three new 4000-amp electrical services, one centrally located fire alarm system. Fire protection system, including water storage tank and pump systems. Interior includes masonry construction as well as 2-hour fire rated construction.

JAMES L. JAMES

Mr. James has over 41 years of experience in the construction industry in roles ranging from DSA project inspector, OSHPD inspector, general electrical foreman, and construction superintendent. From 1991 to 1998, Mr. James worked as a general electrical and fire alarm contractor, primarily in LAUSD schools and various HUD projects. His work has largely centered on school and hospital projects. He is a knowledgeable inspector that works to provide smooth project progress and a successful closeout. His attention to detail, depth of experience, and dedication to his profession make him an asset to any team.

- Mr. James has been employed by TYR, Inc. for 7 years.

LICENSES AND CERTIFICATIONS
- DSA Class I Inspector, No. 3545
- OSHPD – A-20332
- CA General Building Contractor – B498110
- CA Electrical Contractor – C10-498110

PROFESSIONAL EXPERIENCE – INSPECTOR OF RECORD

BARSTOW UNIFIED SCHOOL DISTRICT
Fine Arts Academy – DSA No. 04-116257 – $37 Million – New Construction / Theater
Barstow Fine Arts Academy project consisted of 5 new wood framed buildings totaling 64,000 square feet and modernizations of two existing wood framed buildings. In total, the campus contains an Admin/Kindergarten building, a Multi-Purpose/Nutrition Services building, a Library/Media building, a Music building, 3 Classroom buildings, playgrounds, and an open courtyard.

- Field Inspection: Provided inspection for all geotechnical activities including soil import and stabilization, and compaction, structure concrete foundation, inspection for all wood hardware connectors, ties, straps, and plywood for interior and exterior walls, verification for shear walls and roofing system installation, and exterior lath and plaster. Provided inspection for interior wood framing, including studs, hold down, AB, and Glu lam beams installation, interior drywall, and interior finish, as well for, underground utilities including tie to city connection, and interior rough in for MEP. Provided verification for delivered material as per approved project specifications and submittals, monitored all required testing. Maintained full project documentation (RFIs, CCD, Submittals, as built) and coordinated with testing lab activities.

Skyline North Elementary School – DSA No. 04-116885 – $6 Million – Modernization
Alterations to Classroom/Administration Building, Multi-purpose Building, Classroom Building, Classroom/Library Building (Fire Alarm Upgrade only), 6 Classroom Buildings (Fire Alarm Upgrade only).

Barstow Jr. High School – Interim Housing – DSA No. 04-116785 – $4 Million – New Construction
Construction of 3-Story Structures, 1-Parking Lot; Relocation of 3-Relocatable Kindergarten Classroom Buildings, Nurse Building, Kitchen Building, Library Building, Head start Building, 2 Toilet Buildings, 24 Classroom Buildings, Kindergarten Building, Administration Building, and Administration/Reception Building.

BELFLOWER UNIFIED SCHOOL DISTRICT
Ramona Multipurpose Building Renovation – DSA No. 03-119904 – $2.63 Million – Renovation
Alterations to 1-MP Bldg. B Renovation (A-8594), New Site Electrical Service & Site Fire Alarm Upgrade.

Mayfair High School Gym HVAC and Lighting – DSA No. 03-116365 – $1.1 Million – Modernization
Alterations to 1-Gymnasium HVAC & Lighting Retrofit.

Craig Williams Elementary School – DSA No. 03-117451 – $397K – Modernization
Alterations to 1-Kitchen at Multi-Purpose Building.

EL MONTE UNION HIGH SCHOOL DISTRICT
El Monte High School – DSA No. 03-10961 – $19 Million – New Construction

Administration Building – DSA No. 03-110070 – $10 Million – New Construction
Type V, 1 hour 4 story steel braced frame construction stucco exterior building.
• **Field Inspection:** As the project IOR for this project, inspected all aspects of the construction and all fire life safety systems. Performed all inspection document control duties for the project and scheduled and monitored all special inspectors. Also maintained an up-to-date inspection file and tracked the implementation of all RFIs and change orders. Attended all DSA Field Engineer & EOR, Architect job walks, and tracked the sign off all project closeout documents.

**Arroyo High School – DSA No. 03-112915 – $2 Million – New Construction**
New CMU building, paint booth and storage. Type V-B fully sprinkled.

**MORENO VALLEY UNIFIED SCHOOL DISTRICT**

**Valley View High School Softball Fields – DSA No. 04-116369 – $2.3 Million – New Construction**
Alterations to 2-Toilet Buildings; Construction of 2-Sport Fields, 4-Dug-outs, 1-Scoreboard, 1-Batting Cage.

**WALNUT VALLEY UNIFIED SCHOOL DISTRICT**

**Chaparral School Science Building – DSA No. 03-113429 – $6 Million – New Construction**
Type VB construction with fire sprinkler system. One story steel braced frame 14 classroom building with composite panel exterior.

• **Field Inspection:** Project IOR for this project inspecting all aspects of the construction, concrete, reinforcement, MEP framing drywall and all finishes. Provided document control duties throughout the project and scheduled and monitored all special inspectors. Also responsible for maintaining an up-to-date project documents file and tracking the implementation of RFI’s, submittals and change orders. Attended all job walks with the DSA and project engineers and architect and tracked the sign off all closeout documents.

**TAHOE TRUCKEE UNIFIED SCHOOL DISTRICT**

**Tahoe Elementary School – DSA No. 02-114770 – $2.1 Million – New Construction**
Site work project of 36480 square feet with retaining walls and new ADA classroom entrance ramp.

• **Field Inspection:** As the project IOR, duties were to provide QC inspection throughout the project for all ongoing construction, footings & wall reinforcement & concrete, masonry wall construction, all architectural and ADA construction categories. Report and provide detailed daily reports of the construction status to the Project Manager Team and Architect of Record identifying deficiencies that must be corrected to ensure full compliance with code, plans, and specification. Also monitor all special inspectors assigned to the project, making sure they are certified for the assigned task and are diligent in their duties.

**JUDICIAL COUNCIL OF CALIFORNIA**

**East County Hall of Justice – Project State Number 01-01-11-005 – $120 Million – New Construction**
Type I-A construction. Five story plus penthouse 204371 square ft. steel braced frame construction connection with exterior steel frame curtain wall construction and aluminum and glass window siding.

• **Field Inspection:** As the IOR, duties were to provide QC inspection throughout the construction process for all ongoing construction, footings & wall reinforcement & concrete, masonry wall construction, all MEP, and all architectural construction categories. Provide detailed daily reports of the construction status to the project management team and owners representative, identifying deficiencies that must be corrected to ensure full compliance with code, plans, and specification. Monitor all special inspectors assigned to the project, making sure they are certified for the assigned task and are diligent in their duties.

**Santa Clara Family Justice Center – DSA No. 02-112809 – $231 Million – New Construction**
Type I-A construction. Nine story plus basement steel frame building with Side Plate connection, and precast concrete panel exterior.

• **Field Inspection:** As the field IOR, duties were to provide QC inspection throughout the construction process for all ongoing construction, footings & wall reinforcement & concrete, masonry wall construction, all MEP, and all architectural construction categories. Provide detailed daily reports of the construction status to the Project AOC Rep. & PM Team identifying deficiencies that must be corrected to ensure full compliance with code, plans, and specification. Also monitor all special inspectors assigned to the project, making sure they are certified for the assigned task and are diligent in their duties.
CAL STATE LOS ANGELES

Student Housing East Project – $164 Million – New Construction

Assistant Inspector - The project is a new 1,500 bed traditional style housing project that includes a dining facility, administrative offices, faculty-in-residence apartments, a learning center, and fitness area on ground level along with many study and lounge spaces throughout the complex. The complex totals 394,127 gross square feet and is Type I-B construction, with a structural system including piles, with concrete two-way slab spanning to reinforced grade beams that interconnect the pile caps, the floor decks are post-tensioned concrete supported by reinforced concrete walls and columns, special reinforced concrete shear walls will provide lateral force resisting system for the project.

BRUCE WILLIAMS

Mr. Williams has over 19 years of experience as a DSA Inspector. He has worked on several k-12 and Community College District Projects. His background as both a General & Electrical Contractor made him extremely helpful and valuable to both the District and the Contractors. Mr. Williams proactive leadership allows him to communicate with contractors by notifying them when something is not being installed per plan and specification rather than waiting until something is installed incorrectly. His philosophy as an inspector is simple, 1) Prevention – while reviewing plans and specifications, when inconsistencies are found, get the construction manager, architect and engineers of record involved early to resolve issues. 2) Proactive – notifying contractor as soon as possible when work is found not going per approved construction documents. 3) Protect – the District’s interests by verifying that they are getting what they are paid for and construction is per plans and specifications and applicable Codes. 4) Paperwork – keeping the DSA box up to date always makes closeout easy.

- Mr. Williams has been employed by TYR, Inc. for 7 years.

AKMAL ADIB HANNA

Mr. Hanna has over 28 years in the construction industry in roles ranging from resident inspector to project manager and project engineer. He has acquired a well-versed knowledge of construction methods and has an excellent reputation for working successfully with other project personnel. He is also noted to be an excellent communicator, especially with project stakeholders, and he works well under fast-paced and stressful conditions. Mr. Hanna maintains an exceptional working relationship with contractors, architects, engineers, construction managers, DSA personnel and the owner’s representatives. His demeanor is always friendly and helpful.

- Mr. Hanna has been employed by TYR, Inc. for 3 years.

EDUCATION

- Bachelor’s Degree in Civil Engineering, Cairo University

LICENSES & CERTIFICATIONS

- DSA CLASS 2 Cert. No. 6230
- Construction License B & C10 License No. 994956
- Master of Special Inspection License No. B341181
- ACI Concrete Field-Testing Technician Grade 1
- Pre-Stressed Concrete Special Inspector
- Structural Masonry Special Inspector
- Structural Welding Special Inspector
- Structural Steel and Bolting Special Inspector
- Spray Applied Fire Proofing Special Inspector
- Reinforced Concrete Special Inspector
- Confined Space Training Certificate
- Certificate of achievement for completing 10 HR Construction Occupational Safety and Health Training Course

PROFESSIONAL SEMINARS

- Member of the Egyptian Syndicate of Civil Engineers since 1991
- International Code Council
- American Welding Society

CAL-STATE UNIVERSITY LOS ANGELES

Physical Sciences Building – Non DSA – $100 Million – New Construction
Physical Sciences, building 12, is an eight-story high-rise tower with two levels of basement, totaling approximately 218,000 gross square feet. The building consists of lecture halls, classrooms, offices, laboratories, lab support spaces, and storage. Building 12 was designed in the late 1960’s with final construction documents dated 1969. Records show that the construction of the building was completed in 1972. The scope of work for the above referenced project includes two phases of work. The Seismic & Building Systems Renewal phase shall bring all structural systems up to the current and applicable codes and...
regulations and shall upgrade Physical Sciences, building 12 to current building codes for high rise construction including but not limited to occupancy, fire and life safety, and accessibility. The building's plumbing, mechanical, electrical, and telecommunication systems are included in the project scope and shall be replaced in their entirety.

YOUSSEF SOBHI
FIRM FOUNDER, PRINCIPAL, PRESIDENT, AND SENIOR INSPECTOR

Mr. Youssef G. Sobhi is the founder and President of TYR, Inc. He is well-known in the construction industry, having been an engineer, consultant, and inspector for over 25 years. He specializes in schools and hospitals as a construction inspector and in major projects and landmarks throughout California. He is a professional member and certified by the ICC, DSA, OSHPD and ACI.

Mr. Sobhi will serve as the firm’s single point of contact for the District and their construction managers and engineers. He will discuss work progress on a regular basis with the District team and forecast man-hours required for staffing inspectors through complete reviews for the contractor’s schedules and activities. He will also coordinate required hours for testing and inspection for the District chosen sub-consultant to ensure full utilization of man-hours and help keep project inspection costs to an absolute minimum. He will transfer all information to the District on time to ensure workflow and no interruption during construction. Mr. Sobhi will supervise the inspectors team activities, help on solving any problems that may arise prior and during construction and will be involved on the project from start to finish to ensure a smooth closeout.

EDUCATION
• B.S. Civil Engineering, Construction Inspection Technology (CSULB), CEI College Computer Programming and Network

LICENSES & CERTIFICATIONS
• DSA CLASS 1 – LICENSE No. 3263
• OSHPD CLASS A – CERTIFICATION No. A-20270
• Certified EIT through the Board of Engineering
• ICBO/ICC Certified Plan Examiner
• ICBO/ICC Certified Special Inspector: Concrete, Pre-Stress, Masonry, Structural Steel, & Fireproofing
• Long Beach Certified: Concrete, Masonry & Structural Steel
• DSA Masonry Inspector – License No. 5330
• ICC Plan Examiner
• ICBO/ICC Certified Mechanical Inspector
• LA City Certified: Concrete, Masonry & Shot-Crete & DIA
• ICBO/ICC Certified Building Inspector
• Certified ACI Reinforced Concrete Technician Grade

PROFESSIONAL EXPERIENCE
As the Project Manager for several major courthouse projects throughout the State of California, Mr. Sobhi is the single point of contact for the Judicial Council of California and all the project teams. His duties include but are not limited to the following: review project schedule and create project inspection budget, assist JCC during pre-construction meeting in reviewing plans and work with our inspection team in developing project quality control manual and project matrix.

JUDICIAL COUNCIL OF CALIFORNIA
Superior Court of California, County of San Diego - $555 Million
New construction approximately 750,000 (SF), 23 stories building one of the largest courthouses on the west coast. Approximately $515 Million, with concrete foundation and base isolation columns, structure steel and exterior pre-cast concrete.

Santa Clara Family Justice Center - $250 Million
New construction family justice center providing 20 courtrooms with total of 233,900 GSF building. Mr. Sobhi helped in coordination between contractor quality control team and onsite quality assurance inspection team and assist in solving many CSFM items, provide a full review throughout the project to all related inspection items, as well as coordinate between JCC and office as needed. Monitoring project progress.

ABC Unified School District
Whitney High School – DSA No. 03-113470 - $4 Million
New CTE Classroom Building, type V-1 hr. duties included all site work activities, over excavation, twenty feet building foundations, soil stabilization, concrete, structure steel, wood frame, metal frame, seismic horizontal diaphragms, all mechanical, electrical, plumbing work. All requirements for sound insuation, inside performance hall, verification for fire rated walls, penetrations, fire assemblies, fire sprinklers systems. Administrative and management work as Title 24, including filing systems (RFI logs, submittals, etc.). Daily and semi-monthly reports, attending preconstruction and weekly meetings.
LYNWOOD UNIFIED SCHOOL DISTRICT

Lugo Elementary School – DSA No. 03-105746 - $18 Million
1 and 2 stories, structural steel, type V-1hr construction with a wood frame, administrative building, exterior site. Continuous inspection throughout construction to include detailed daily and monthly reports; daily communication with all members of the construction team; the owner, architect and construction manager, complete mechanical, electrical, and plumbing inspection, issue correction notices as necessary to ensure full compliance with code, plans, and specification, monitoring and supervision assistant inspector, and testing lab. Throughout the whole project, complete record keeping for RFI's, change orders, and DSA PCO's.

Vista High School – DSA No. 03-105024 - $4 Million
structural steel frame, 1 and 2 stories, with admin. Building. As the project inspector for this project all duties perform as required by Title 24 of the California Building Standards Administrative Code which includes but not limited to inspection in all aspects of the construction process, building codes, electrical, mechanical, and plumbing. Attend all necessary meeting to ensure construction timeline is on schedule.

Will Rogers Elementary School – DSA No. 03-104730 - $16 Million
Administrative Building, steel and wood frame, 1 and 2 stories structural building. Provide continuous inspection throughout the project as per title 24, in addition to administration duties as required by the owner such as reviewing and approving monthly payment progress, practicable in the review of change order, and project schedule.

COAST COMMUNITY COLLEGE DISTRICT

Golden West College
Mr. Sobhi provided and continues to provide Project Management services to this campus for over a decade. His duties include but are not limited to: coordination for multiple projects on campus that were and are constructed simultaneously throughout the campus, maintaining the ratio of inspectors relative to the progress of construction activities without any added cost to the overall inspection budget, help the district and its representatives during planning pre-construction phases, and construction phase as well as help and assist in each individual project closeout and certification process. The following are some of the many projects for which Mr. Sobhi provided his services as a Project Manager and DSA inspector:

Kaplan District Center – DSA No. 04-114677 - $35K
Relocation of 5-Classroom Buildings 1, 2, 3, 4 and 5, 1-Administration Building, 1-Restroom Building.

Student Service Center - DSA No. 04-114433 - $22.5 Million
Construction of 1-rough grading, utilities, demolition of Library Building, 1-Student Service Center Building.

Learning Resource Center – DSA No. 04-108596 - $30 Million
Cast in place 3-story reinforced concrete building.

Public Safety Building - DSA No. 04-113710 - $3.3 Million
Construction of 1-Public Safety Building, 1-Storage Yard Building, 1-Site Improvement.

Boys and Girls Club Project, phase 2 - DSA No. 04-113376 - $2.7 Million
Construction of 1-Shade Structure, 1-Multi-purpose Building and associated site work.

LOS ANGELES COMMUNITY COLLEGE DISTRICT

Los Angeles Harbor College - Northeast Academic Student Service Center – DSA No. 03-108272 - $37 Million
LEED (Leadership in Energy and Environmental Design) project; review all construction inspection during all project phases including supervising all testing lab. Activities, such as environmental, geotechnical, reinforced concrete, structure steel and structural masonry. Also monitor, review all lead/commissioning project requirements. Required record keeping, High skill communication with project construction managers, contractor and design team through weekly meetings, daily reports, and semi-monthly report also this one of the few projects that uses one of the most advance computer software Proliance with the help of our inspectors to track down all quality control activates in a daily basis.

ADDITIONAL SCHOOL DISTRICTS

Mr. Sobhi's long work history also includes IOR and project inspection management services provided for: ABC USD Bellflower USD, Duarte USD, LAUSD, Long Beach CCD, Montebello USD, Lynwood Unified School District USD, and numerous other districts.

*Please note that this is a partial listing of Mr. Sobhi's very extensive experience with construction inspection. A full accounting of his lengthy experience is available upon request.*
3.2. EXPERIENCE
3.2. EXPERIENCE

3.2.1. MODERNIZATION AND NEW CONSTRUCTION PROJECT EXPERIENCE
In our 18 years of business, we have had the pleasure of working with numerous school districts throughout the state of California. This has led our company to gain the vital knowledge required to work on different project scopes, such as new construction, modernization, and renovations, including of historically significant theaters. Below is a brief description of how our project approach is distinct for each project type.

APPROACH TO MODERNIZATION versus NEW CONSTRUCTION PROJECTS
Our approach to modernization versus new construction projects is simple. In both types of construction, our goal is to provide excellent service and safe buildings.

MODERNIZATION PROJECTS
Modernization projects are typically done on existing buildings and usually have students, faculty, and other individuals onsite during construction. These aspects can sometimes cause delays which can affect the schedule of the project. As Inspector of Record, we understand time sensitivity in construction schedules and safety with the individuals on campus. The following is a few methods we take as a firm and Inspector of Records to ensure modernization projects run smoothly:

1. We believe that communication with the entire project team is essential to keep projects on schedule. During planning we work to find the best approach to guarantee there are not too many interruptions throughout the projects schedule. Additionally, we communicate with the entire project team (i.e. Project/Program Managers, Construction Managers, Architects, and Owners) throughout the project to ensure that there are no new delays.
2. Since these projects are fast based, we communicate with the DSA Field Engineers and make sure all components of the DSA Box are fulfilled in a timely manner.
3. Our IOR's request any DSA waivers that may impact projects such as, interim verified reports based on PL-14-01 in order to expedite the process of signing all DSA form 152-1C.
4. Our firm maintains records for all existing conditions prior, during construction, and all final reports. We work with the design team, project manager and district representative to ensure a successful closeout for the project.

NEW CONSTRUCTION PROJECTS
With new construction projects, our main goal is a full close out of the project by maintaining high quality inspections throughout its duration. The following is a few methods we take as a firm and Inspector of Records to ensure these types of projects run smoothly:

1. During the preconstruction phase of the project, we provide a practical review of the plans and specifications from the IOR’s perspective to help eliminate any future impact on the project schedule and progress.
2. We assist with creating a Quality Assurance/Quality Control manual based on the projects approved plans, specs and all applicable codes.
3. We provide input and analysis to aid the District on item phases such as review testing lab requirements.
4. We review all onsite conditions prior to starting construction; this helps us to ensure document conditions throughout the progress of the project and aids in the project's closeout.

Throughout the construction phase for any project, the IOR will review the requirements for each phase of construction with the contractor, maintain construction records throughout the entire project, (i.e. concrete placement records, Welding Records, RFI’s, Architects Supplemental Instruction Reports (ASI) and Bulletins), will coordinate with special inspections and will inspect all portions of the construction and documentations. Our main goal is to have final closeout with 100% certification and to closeout each project with safe buildings that are great in quality while staying within the budget and schedule.

3.2.2. PROJECT LISTING – K-12 SCHOOL PROJECTS
Please note that this is only a partial accounting of our extensive inspection experience. A full project experience list is available upon request.
### 3.2.3. PROJECT TEAM

We currently employ forty (40) inspectors who have extensive experience in DSA and OSHPD inspections, with a concentration in K-12 construction. Our experienced and professional inspectors carry multiple inspection certifications and are experts in different types of construction (i.e. Type I, II, and IV), in addition each of our inspectors understand construction delivery methods such as: General Contractors, Multiple Prime Contractors, Prefab Buildings, and Design Build.

TYR, Inc. only hires an individual that meets our high ethical standards and sustains great communication skills with all project teams, as well as, possesses extensive experience and knowledge of codes which they are responsible to enforce. These codes

3.2.3. PROJECT TEAM

We currently employ forty (40) inspectors who have extensive experience in DSA and OSHPD inspections, with a concentration in K-12 construction. Our experienced and professional inspectors carry multiple inspection certifications and are experts in different types of construction (i.e. Type I, II, and IV), in addition each of our inspectors understand construction delivery methods such as: General Contractors, Multiple Prime Contractors, Prefab Buildings, and Design Build.

TYR, Inc. only hires an individual that meets our high ethical standards and sustains great communication skills with all project teams, as well as, possesses extensive experience and knowledge of codes which they are responsible to enforce. These codes

796 Wonder Lane • Costa Mesa, CA 92627 • Phone: (949) 524-3020 • Fax: (949) 524-3058 • www.tyrior.com
are concurrent with the California Building Codes, with an emphasis on School Construction. We are confident that you will be pleased with our inspectors’ performance and knowledge of construction practices.

As mentioned above, given that our inspectors hold multiple licenses, we make sure to match the projects needs with an assigned inspector that has equivalent licenses and similar experiences. Since each project is unique, the inspector’s experience and technical background is considered in order to complement the project and the client’s needs. Each one of our inspectors is experienced in providing inspection services in compliance with the following:

- California Building Standards
- California Code of Regulation
- California State Fire Marshal
- California Title 24

**MANAGEMENT LEAD & PROJECT MANAGER**

The primary liaison to the District will be Youssef Sobhi. Mr. Sobhi will be the single point-of-contact with the District and their construction managers and engineers. He will discuss work progress on a regular basis not only with the Client’s team, but also with both the DSA team on site and Client selected sub-consultants. He will transfer all information to the Client on time to ensure workflow and no interruption during construction. Mr. Sobhi will supervise the inspectors team activities, help on solving any problems that may arise prior and during construction and will be involved on the projects from start to finish ensuring a smooth closeout.

Please see Section 3.1.2. and 3.1.3. for more information regarding the inspectors' expertise, experience, and resources, as well as the public works and California public school projects on which they have provided inspection services.

**3.2.4. PUBLIC WORK REQUIREMENTS**

Through our years in business, we developed a strong professional relationship with many public entities such as Division of State Architect (DSA), Office of Public-School Construction (OPSC), Uniform Building Code (Title 24 of the California Code of Regulations), etc. We found these relationships to be the essential cornerstone to help our K-12 and Community College districts build trust with our clients to help the progress of any project to move smoothly and without interruptions.

**DIVISION OF STATE ARCHITECT**

Starting from the reputable and reliable process of our inspector’s selection that is well known to DSA offices throughout Southern California’s regional offices, we have never encountered any rejections for any of our inspectors or even questions related to DSA form 5-PI. This allows the acceptance time to be reduced to minimum and ease the process of the form 102-IC, as well as establishing the DSA Box in a short period of time.

During construction, we work hand to hand with DSA field engineer and design team to minimize unnecessary filing, as well as expedite the approval process. In many cases when it benefits clients our inspectors will communicate with their field engineer to expedite the process for several CCD related to any fire life safety, ADA, and Structure items, this is critical for the progress of any project, for keeping projects within schedule and budget, and essential to the overall success. In addition, our inspectors and office will help in the process of close out since we understand the urgency of such a task. All our inspectors start the close out process from day one and continue all filing and uploading to DSA box and signing all DSA 152 forms for each section with a
collaborate effort with the design team, material testing laboratories and special inspection. Our team will ensure complete and final sign off to all items; this process will provide our clients with an on time complete certified building.

In addition, in many cases when it benefits the clients, our inspectors will communicate with their field engineer in order to expedite a process or obtain a verbal approval for a Field Change Directive (FCD). This helps the progress of the project without interruptions at any time. With the DSA Box system our inspectors communicate efficiently with their field engineers in waiving the requirements of interim verified report using PL-14-01 for many projects as well as in some sections of large projects. This would help reduce the amount of administrative work and expedite the process of the project’s closeout.

**OFFICE OF PUBLIC SCHOOL CONSTRUCTION**

Another example of our excellent working relationships would be with the Office of State Public School Construction (OPSC). We have encountered and helped many of our clients to achieve their goals by maintaining a full project record. By using these records, including digital pictures, they were successful in obtaining their funds. In many cases we provided the OPSC information related to existing site conditions, utilities, etc. This was necessary to comply with certain fund or grant requirements.

In conclusion our relationships with all entities have been built on a great foundation of trust and hard work, and we have met and continue to commit to the demands and requirements of our clients and DSA regulations to ensure successful and safe projects and satisfied clients.

**3.2.5. DISTRICT CONTRACTS**

TYR, Inc. has no information to provide regarding contracts held with Newport-Mesa Unified School District in the last three (3) years. We look forward to this potential opportunity to work together to provide more for our community’s students.
3.3. SUB CONSULTANTS
3.3.1. Sub-Consultants

TYR, Inc. has provided a few sub-consultants for materials and testing services when requested by a client and would be happy to do so for the District, if needed. For the purposes of this RFQ submission, we do not have any relevant sub-consultants to provide at this time.
3.4. REFERENCES
3.4. REFERENCES

We take pride in and are committed into providing the best customer service to our clients. We understand the importance and the necessity of customer service; loyalty to our clients is one of our firm’s core values. Our firm always keeps the client’s best interest in mind and provides full support and assistance in all areas necessary. Our strong relationship with our clients is due to the professional level of services we provide our clients.

3.5. LEGAL ISSUES
3.5. LEGAL ISSUES

3.5.1.1. Is there now pending any legal action against the firm or any employee of the firm alleging violations of the law in connection with an offering of municipal securities in a California transaction? If so, please describe such pending action.

As a result of our reliable and outstanding services, TYR, Inc. has never had any legal action against the firm or any employee of the firm alleging violations of the law in connection with an offering of municipal securities in a California transaction.

3.5.1.2. Have there been any settlements or judgments involving such actions within the last five (5) years? If so, describe each such settlement or judgment, including the nature of the action and the amount of recovery.

TYR, Inc. has never had any settlements or judgments involving such actions, including within the last five (5) years.

3.5.1.3. Please list and describe any judgment, settlement, or arbitration award valued at $5,000 or greater relating to a civil action judgment, settlement, arbitration award, or administrative action for any individual licensee, as required to be reported to the State of California.

TYR, Inc. has never had any judgment, settlement, or arbitration award valued at $5,000 or greater relating to a civil action judgment, settlement, arbitration award, or administrative action for any individual licensee, as required to be reported to the State of California. Therefore we have nothing to list or describe.
