SAMPLE PROGRAMS OF STUDY
A pathway is an opportunity for students to complete sequential courses in Career Technical Education, as they progress towards graduation. This increases their options by exploring careers for post-secondary education and future employment.

This pathway is for aspiring video and filmmakers in the production of film, video, and new media projects for business and entertainment. Students experience both the creative and technical aspects of film making in conjunction with learning about historical and contemporary traditions and conventions. Students are instructed on the basic principles of story development, screenplay writing, storyboarding scheduling, budget planning, visual composition, color theory, set up and operation of camera, sound and lighting equipment, and software applications for video and audio post-production using industry-standard software.
